

iPET Network
Level 3 Award in Promotion
of Canine Skin, Hair and Nail
Health
Qualification Number - 610/1492/8
Qualification Specification

iPET Network

LED BY INDUSTRY EXPERTS.

DRIVEN BY PASSION.

BOUND BY ANIMALS.

GUIDED BY CANDIDATES.

UNITED BY iPET NETWORK.

Our Mission

EDUCATION FOR PEOPLE, FOR PETS, FOR THE FUTURE

To be the Awarding Organisation of choice for Training Providers, Employers and Learners in the Animal Care and Veterinary Science Sector.

We demand the highest standard of practice to ensure our suite of qualifications work: they work for pets who deserve the best care; they work for learners giving valuable skills, and they work for Training Providers with strong market appeal.

Leading the way:

iPET Network is an Awarding Organisation regulated by Ofqual, CCEA Regulation and Qualifications Wales, specialising in qualifications in the Animal Care and Veterinary Science sector. iPET Network is a sector-specific Awarding Organisation and are constantly developing innovative animal care and veterinary science qualifications in the industry. We are unique in our approach to development, design and awarding of qualifications through the range of services and support we offer. Additionally, iPET Network is an End-point Assessment Awarding Organisation (EPAO) for English Apprenticeship standards and offers Professional Development Recognition (PDR) of unregulated educational courses.

Our approved Training Providers have exclusive access to our portfolio of qualifications, courses, learning materials and assessment strategies. We offer an inclusive opportunity to join a diverse network of forward-thinking professionals across the UK, Ireland, Europe and internationally.

We do the hard work for you – fast, flexible and straightforward:

We have developed robust systems at the forefront of technology that include extensive resources, quality learning materials and varied assessment methods. Our centralised platform makes it simple for Training Providers and their teams to deliver, manage, mark and quality assure all in one place. We provide access to training and updates through standardisation to uphold modern best practice.

Organisations of many different types, who want to deliver education, can join iPET Network, taking advantage of becoming a direct approved Training Provider. With transparent fees and packages to suit every size of organisation from sole traders to limited companies, colleges and large employers.

An exciting and supportive community:

We practice what we preach - the iPET Network team has extensive experience and knowledge of working in the animal care, veterinary science and education sector. We provide support, advice and Continual Professional Development to help Training Providers offer the best standard of education and to inspire the future generation of the industry. We believe in removing learning barriers and working with Candidates of all abilities to help them reach their full potential.

1. About This Qualification

The **iPET Network Level 3 Award in Promotion of Canine Skin, Hair and Nail Health** has been developed to further develop the pet professional's understanding of anatomy and physiology of canine skin, hair and nails and common diseases of the skin that many pet professionals are faced with. This qualification is aimed at those working directly with dogs such as groomers, breeders, dog walkers/sitters and those in pet retail.

For those working in the canine industry, the ability to recognise signs of skin disease, use appropriate techniques and products and be able to provide education to owners supporting skin and hair health, is essential.

This qualification has been developed in line with the Veterinary Surgeons Act, 1966 in respect of what constitutes an act of veterinary surgery and does not in any way advocate or support the diagnosis and treatment of medical conditions.

The purpose of this qualification is, instead, to support pet professionals in recognition of early signs of skin disease enabling prompt signposting of clients to their veterinary surgeon. It also aims to develop awareness of their role in supporting owners and veterinary surgeons in managing skin and hair disorders.

Objectives of the qualification

This qualification has been designed to enable Candidates to:

- Develop knowledge of anatomy and physiology of canine hair and skin
- Demonstrate an in-depth understanding of canine skin, hair and nails
- Recognise and understand common skin complaints
- Apply understanding of skin anatomy and disease to own role as a pet professional
- Discuss and recognise own professional limitations, knowing when to recommend a client seeks veterinary advice
- Apply relevant theoretical knowledge to providing advice to owners on grooming, maintaining coat quality and condition

The qualification will:

- Improve employability skills
- Enhance job satisfaction through greater understanding and versatility within existing role
- Encourage engagement in learning
- Prepare individuals to progress to another qualification in the same subject area, studying at a higher level or a qualification requiring more specific knowledge, skills and understanding.

Suggested progression following completion of the qualification:

- iPET Network Level 3 Diploma in Dog Grooming and Salon Management (if not already a holder)
- iPET Network Level 3 Award in Canine Emergency First Aid
- iPET Network Level 4 Award in Emergency Canine First Aid in the Workplace
- iPET Network Level 3 Diploma in Canine Nutrition.

It is a requirement that assessment of this qualification is conducted in English.

The **iPET Network Level 3 Award in Promotion of Canine Skin, Hair and Nail Health** is a regulated qualification.

Guided Learning Hours (GLH)

Guided Learning Hours (GLH) are defined by the [Apprenticeships, Skills, Children and Learning Act, 2009](#) as the number of hours the Candidate spends:

- Being taught or given instruction by a lecturer, tutor, supervisor or other appropriate provider of education or training, or
- Otherwise participating in education or training under the immediate guidance or supervision of such a person.

GLH does not include time spent on unsupervised preparation or study, whether at home or otherwise.

iPET Network has calculated the GLH for this qualification representing an estimate of the amount of actual guided learning which could reasonably be expected to be required to achieve the standard required to obtain the qualification.

Estimated GLH will be stated for each unit which should be used by Training Providers as a guide for devising teaching and learning plans. GLH may be recorded within the e-portfolio (if being used) or within the Candidate Hours Log (if the e-portfolio is not used).

Total Qualification Time (TQT)

Total qualification time is defined as the number of Guided Learning Hours (GLH) **plus** the time taken by the Candidate for independent, unsupervised study. Individual Learners' requirements and individual teaching styles mean there will be variation in the actual time taken to complete a qualification. Values for Total Qualification Time are estimates as some Candidates will be able to achieve units and qualifications within a shorter time than indicated. Others, for example those with additional support requirements, may need longer.

Guided Learning Hours and Total Qualification Time for this qualification are:

iPET Network Level 3 Award in Promotion of Canine Skin, Hair and Nail Health

GLH (Guided Learning Hours): 18 hours

TQT (Total Qualification Time): 50 hours

Qualification Delivery Requirements

This qualification may be delivered as the Training Provider sees fit, ensuring that Guided Learning Hours requirements are met. As part of the application to deliver, Training Providers must be able to evidence how they intend to deliver the qualification, including the methods by which they will achieve the estimated GLH and TQT.

2. Candidate Requirements

Entry requirements

Candidates wishing to study this qualification must have the ability to work at Level 3; however, there are no additional entry criteria.

Minimum age

The minimum age for access to this qualification is 16 years.

Training Providers ought to satisfy themselves that Candidates have a level of maturity appropriate for units included in the courses that they offer. If in doubt, please contact iPET Network for advice.

Reasonable Adjustment and Special Considerations

Assessment within the iPET Network Level 3 Award in Promotion of Canine Skin, Hair and Nail Health qualification is designed to be accessible and inclusive. The assessment methodology is appropriate and rigorous for individuals or groups of Candidates.

If you have Candidates with identified learning needs you should refer to the Reasonable Adjustment and Special Considerations Policy, available from iPET Network. This gives clear guidance on the reasonable adjustments and arrangements that take account of disability or learning difficulty without compromising the achievement of the assessment criteria.

Further guidance and support can be accessed by contacting iPET Network.

3. Recognition of Prior Learning (RPL)

Exemption (also known as 'Recognition of Prior Certificated Learning) - is the facility for a Candidate to claim exemption from some of the achievement requirements of an iPET Network qualification using certificated evidence, for example certificated NQF achievement. This must be of an equivalent or higher value to an iPET Network unit but may not share the exact assessment criteria or learning aims.

Training Providers wishing to obtain further details regarding awarding of RPL should refer to the iPET Network **Recognition of Prior Learning Policy**.

4. Induction / Initial Assessment

An initial assessment of each Candidate should be made before the start of their programme to identify:

- If the Candidate has any specific learning or training needs
- The support and guidance they may need when working towards their qualification
- The Candidate's suitability for the type and level of qualification.

Each Training Provider must carry out an induction so that Candidates fully understand the requirements of the qualification, their responsibilities as a Candidate, and the responsibilities of the Training Provider. This information will need to be recorded e.g. within a contract.

5. Achieving the Qualification

Credits

To be awarded the iPET Network Level 3 Award in Promotion of Canine Skin, Hair and Nail Health, Candidates must achieve 5 credits.

Unit achievement

All of the assessment criteria in a unit must be met before the unit is deemed to be achieved. The unit achievement is not graded: units are either achieved or not achieved.

Recording achievement

Training Providers must record the Candidate's achievement of each unit on an appropriate form(s) or electronic system. Training Providers should record the Candidate's achievement against the specific unit assessment criteria evidenced by the task.

Authentication of the Candidate's work

Tutors must demonstrate that the Candidate's work is authentic. This can be done through using iPET Network's e-portfolio system which provides secure access to each Candidate or through use of an alternative e-portfolio system. If a Training Provider is using paper-based portfolio, they must be able to demonstrate authenticity of the work and must provide transparent feedback from marking to internal quality assurance.

Assessments must demonstrate authenticity please refer to assessment methods in this Qualification Handbook.

Duration of registration

All Candidates will be registered with iPET Network for a period of 6 months. Failure of the Candidate to complete the qualification during this timeframe will incur an additional charge for re-registration. Please refer to your **Terms and Conditions** for further details. Extension to registration may be obtained with written permission under specific extenuating circumstances. Please contact iPET Network for advice regarding extensions to registration.

6. Qualification Structure

Units

iPET Network Reference No.	Title	Level	Credit	GLH	TQT	Unit Reference number
345	Anatomy and Physiology of the Canine Integument	3	2	8	20	T/650/4235
346	Principles of Promoting Canine Skin, Hair and Nail Health	3	3	10	30	Y/650/4236
TOTALS			5	18	50	

Level descriptor

Level	Knowledge Descriptor (the holder...)	Skills Descriptor (the holder can...)
Level 3	<p>Has factual, procedural and theoretical knowledge and understanding of a subject or field of work to complete tasks that while well-defined, may be complex and non-routine.</p> <p>Can interpret and evaluate relevant information and ideas.</p> <p>Is aware of the nature of the area of study or work. Is aware of different perspectives or approaches within the area of study or work.</p>	<p>Identify, select and use appropriate cognitive and practical skills, methods and procedures to address problems that while well-defined, may be complex and non-routine.</p> <p>Use appropriate investigation to inform actions.</p> <p>Review how effective methods and actions have been.</p>

7. Assessment

This qualification requires achievement of the specified units and summative assessments. The assessment process is as follows:

1. Assessments are developed by iPET Network and provided to the Training Provider or assessments may be devised by the Training Provider and approved by iPET Network in advance

2. The assessment is then delivered and implemented by the relevant iPET Network approved Training Provider
3. All Tutors involved in the assessment process must have been approved by iPET Network, on an individual basis, in advance of any assessments being carried out
4. Compiled portfolios of assessed evidence are internally quality assured by an iPET Network approved Internal Quality Assurer (IQA) via remote sampling.
5. Completed portfolios of assessed evidence are then quality assured by an External Quality Assurer (EQA) approved by iPET Network.

Assessment method

Assessment is through a Portfolio of Evidence/Workbook and Case Study.

Specimen Assessment Materials

Specimen assessment materials are not available for this qualification.

Marking

These assessments are pass or fail and the Assessor's decision is final. The use of artificial intelligence for sole marking of any candidate's work is strictly prohibited. Please contact iPET Network to discuss the use of AI for marking.

*Please note re-assessments are permitted.

Qualification grading

This qualification is graded pass or fail and the Assessor's decision is final.

Appeals

To ensure a fair assessment procedure is carried out, the Candidate must be fully briefed on the assessment requirements and given instructions on their right to appeal. All Training Providers must have an up-to-date Appeals procedure.

What constitutes a fail?

It is at the Tutor's professional discretion if they pass or fail the Candidate. It is recommended that all elements of each assessment criteria are met and that all knowledge activities are completed.

Examples of what may constitute a fail:

- Plagiarism
- Irrelevant content
- Incomplete knowledge
- Incomplete coverage of an assessment criterion

- Poor understanding of the limitations of pet professionals under the Veterinary Surgeons Act, 1966

When making an assessment decision it is important that all evidence and feedback is documented to support the assessment decision whether it is a pass or fail. If the decision is a fail, then the Candidate must be provided with support and the opportunity to re-sit the assessment once they are ready.

8. Offering the Qualification

Training Providers wishing to deliver this qualification will need to demonstrate the ability to adhere to quality assurance and assessment regulations.

All procedures for the use of this qualification or units of this qualification, including approval, registration of Candidates, quality assurance process and certification will be completed through iPET Network, who will have an allocated member of the Quality Team to support the Training Provider. Any queries or difficulties should be directed to the allocated Team member or if they are not available, via the iPET Network office on 0800 433 4700.

Approval to offer the qualification

Training Providers wishing to offer this qualification must note the requirements stipulated in Appendix A.

To offer this qualification, potential Training Providers must apply for Training Provider approval with iPET Network. Applications can be made via email info@ipetnetwork.co.uk or by calling 0800 433 4700.

In addition, to gain approval to offer the qualification, Training Providers must apply by submitting an iPET Network **Qualification Approval Form** which can be downloaded from the website.

For more information, visit our website www.ipetnetwork.co.uk.

Standardisation

Standardisation is a process that promotes consistency in the understanding and application of standards.

Standardisation:

- Establishes statements on the standard of evidence required to meet the assessment criteria for the units in iPET Network Qualifications
- Makes recommendations on assessment practice
- Produces advice and guidance for the assessment of units
- Identifies good practice in assessment

It is a requirement of the Training Provider approval process that each Training Provider offering units from iPET Network qualifications must provide assessment materials and Candidate evidence for standardisation if requested.

iPET Network will notify Training Providers of the required sample(s) for standardisation purposes. Assessment materials, Candidate evidence and Tutor feedback must be sent to iPET Network by Training Providers.

Outcomes from standardisation will be available to Training Providers through iPET Network.

Support for Training Providers

iPET Network provides all Training Providers with on-going support and advice on the use of iPET Network units and qualifications, including the requirements for assessment.

If Training Providers who are approved to offer iPET Network units and qualifications have obtained a UKPRN (UK Provider Reference Number) from the UKRLP (UK Register of Learning Providers), this will be used as the Training Provider's reference number. If a Training Provider has not obtained a UKPRN they will be issued with a unique iPET Network Training Provider number.

Information about obtaining a Unique Learner Number (ULN) on behalf of the Candidates is included in the ***iPET Network Training Provider Manual***.

Training Provider responsibilities

Each Training Provider should identify a named contact person who will be responsible for any iPET Network provision within the Training Provider organisation.

The Training Provider contact must ensure all procedures relating to the delivery of the qualification operate effectively in the centre.

The Training Provider contact is the person responsible for confirming and ensuring that the Training Provider meets all the iPET Network requirements for Training Provider recognition.

The Training Provider contact is responsible for ensuring all relevant iPET Network documentation is distributed as required within the Training Provider and that the security requirements for external assessment are adhered to, where applicable.

9. Requirements to Offer This Qualification

To offer this qualification, Training Providers must ensure that Tutors delivering this qualification have one of the following recognised professional qualifications:

- Level 3 (or above) regulated qualification in Animal Care (or similar); or
- Level 3 Diploma in Dog Grooming (C&G, OCNWM or iPET Network); or
- Level 3 Diploma in Veterinary Nursing and is an RCVS Registered Veterinary Nurse (RVN); or
- Qualified Veterinary Surgeon (MRCVS)

Or,

- Demonstrate a CV / career profile of skills, knowledge, experience and achievements. This will be accepted at the discretion of the Awarding Organisation.

And,

Hold a teaching certificate (examples detailed below) and / or are able to demonstrate their teaching experience:

- the Level 3 Award in Education and Training; or
- the iPET Network Level 3 Award for Educators in the Canine and Feline Sector; or
- the Level 4 Certificate in Education and Training; or
- Level 3 or 4 PTLLS (or equivalent).

If no formal teaching qualification is held, it will be a requirement that a teaching qualification is achieved within 12 months of approval.

Training Providers must also ensure that they have in place an Internal Quality Assurer who:

- Holds or is working towards a Level 4 Award in Internal Quality Assurance of Assessment Processes and Practices or its equivalent
- Has substantial experience of working in or assessing qualifications in dog grooming; and
- Is familiar with the assessment requirements of the qualification for which they are the Internal Quality Assurer.

Or

- Gold package registrations are used (*refer to Training Provider fees*)

10. Qualification Unit Breakdown and Assessor Guidance

Unit title:	Anatomy and Physiology of the Canine Integument
Level:	3
Credit value:	2
GLH:	8
TQT:	20
Unit code:	345
Unit reference number:	T/650/4235
Unit aim:	The aim of this unit is to provide Candidates with knowledge and understanding of the anatomy and physiology of canine integument (skin, hair, nails, foot pads, nasal planum), providing a basis of understanding of the normal, healthy structure and appearance of the integumentary structures (both micro- and macroscopic). In addition, the unit will introduce concepts including how the coat varies according to breed, how dog's coats obtain their unique colour and markings, and the growth cycle that hair undergoes regularly.
Number of learning outcomes	10

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1. Know and understand the integumentary structures and functions of skin	1.1. Recognise the structures forming the integumentary system
	1.2. Describe the key functions of the skin
2. Know and understand the 3-layered structure of the skin	2.1. Describe the overall layer structure of canine skin
	2.2. Describe the structure and function of the epidermis
	2.3. Describe the role of the cells of the epidermis
	2.4. Describe the basement membrane zone
	2.5. Explain the structure and function of the dermis
	2.6. Explain the structure and function of the hypodermis
3. Know and understand the structure and function of the accessory structures found within the dermis	3.1. Describe the main types of gland found within the skin of dogs
	3.2. Explain the blood supply to the skin
4. Know and understand the properties of healthy skin	4.1. Describe the properties of healthy canine skin
5. Know and understand the structure and function of hair and the hair follicle	5.1. Describe the functions of canine hair
	5.2. Describe the structure of the basic hair follicle and associated structures

	5.3. Describe the structure of a hair
6. Know and understand the variations in hair seen between different breeds of dog	6.1. Describe the different types of hair found in dogs
	6.2. Describe the different angles of hair growth and how this varies according to breed
	6.3. Differentiate between the hair follicles of curly and straight-haired breeds
	6.4. Differentiate between fur and hair
	6.5. Review differences in coat texture in a variety of breeds
7. Know and understand the hair cycle in dogs	7.1. Describe the process of hair development, growth and shedding
	7.2. Discuss factors that influence the hair cycle
8. Know and understand pigmentation of the skin and hair	8.1. Discuss the role of melanocytes in pigmentation of the skin
	8.2. Describe the role of melanin in production of coat colour
	8.3. Describe the role of genetics on coat colour in dogs
9. Know and understand the structure and function of the canine nail	9.1. List the functions of the canine nail
	9.2. Describe the dew claw and when this may be present/absent
	9.3. Identify the structure of the canine nail
	9.4. Relate the anatomy of the nail to correct techniques for clipping nails
10. Know and understand the structure and function of the nasal planum and foot pads	10.1. Describe the normal appearance of the nasal planum
	10.2. Describe the normal foot pads of the dog

Unit title:	Principles of Promoting Canine Skin, Hair and Nail Health
Level:	3
Credit value:	3
GLH:	10
TQT:	30
Unit code:	346
Unit reference number:	Y/650/4236
Unit aim:	The aim of this unit is to provide Candidates with the knowledge and understanding of common skin and hair diseases affecting dogs. The unit will introduce methods of basic skin and coat assessment, address the value of nutrition in maintaining health of the skin and hair and will enable Candidates to recognise the signs of common skin and hair-related concerns. Candidates will learn the responsibilities and limitations of the pet professional and how grooming and the products they use affect the skin. The unit places an emphasis on the recognition of these signs only and <u>does not</u> encourage or facilitate diagnosis or treatment of any dermatological condition.
Number of learning outcomes	9

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1. Know and understand the process for examining the health status of the skin and coat	1.1. Outline the procedure for a full examination of the coat and skin 1.2. Differentiate between signs of healthy and unhealthy skin and hair
2. Know and understand the importance of nutrition in maintaining the health of the skin and hair	2.1. Discuss the functions and benefits of certain nutrients on the health of canine skin and hair 2.2. Evaluate the role of nutritional supplements for skin and coat health 2.3. Explain scenarios in which a dog's requirement for nutrition, to maintain skin and coat health, may increase
3. Know and understand the common causes of disease of the skin and hair	3.1. Describe common causes and signs of skin and coat ill-health 3.2. Recognise skin lumps and bumps 3.3. Explain the development of the itch-scratch cycle 3.4. Describe the signs and symptoms of 'wet' skin conditions in dogs
4. Know and understand the signs of hereditary skin conditions in dogs	4.1. Describe breed-related (hereditary) skin conditions in dogs
5. Know and understand the causes and signs of ear conditions in dogs	5.1. Describe the common causes of external ear disease in dogs (otitis externa) 5.2. Identify signs of external ear conditions in dogs (otitis externa)

6. Know and understand the responsibilities of the pet professional in maintaining canine skin and coat health	6.1. Describe the pet professional's responsibility in supporting canine skin and hair health
	6.2. Apply the veterinary Surgeons Act, 1966, Schedule 3 to the role of the pet professional
7. Know and understand how grooming affects the skin and coat condition	7.1. Explain the benefits of regular grooming on the dog's skin and hair
	7.2. Discuss the effects of heat and water on the skin and hair
	7.3. Explain how clipping alters skin and hair
8. Know and understand the use of products on skin and hair	8.1. Describe the correct procedure for bathing a dog
	8.2. Describe the purpose and effects of using shampoos on dogs
	8.3. Discuss a range of suitable and unsuitable shampoos for dogs
	8.4. Explain the use of medicated, prescription and hypoallergenic shampoos for dogs
	8.5. Explain the purpose and effects of using conditioners on dogs
	8.6. Describe the advantages and disadvantages of using other skin and hair products on dogs
	8.7. Describe the procedures and products used in the cleansing of canine ears
9. Know and understand the role of the pet professional in educating clients	9.1. Explain ways in which pet professionals may provide education to clients regarding promoting the skin, hair and nail health of their dogs

Assessment information

All Assessment Criteria must be evidenced. For guidance on assessment, including principles of assessment and methods which may be used, Training Providers should consult the 'Assessment' section of the iPET Network Qualification Handbook and relevant policies.

Sector Subject Area (SSA)	3.3
Date from which qualification will be available for learners	14/09/2022
Qualification review date	14/09/2025
